SUMMARY

Hello! My name is Abdulaziz and I enjoy creating that live on the internet. Fast-forward to today, I am growing knowledge beyond React JS, Next JS, React Native, Node JS.

EDUCATION

2020 - NOW

South Korea

Computer Engineering

Dongseo University

- I have acquired general knowledge of Database, AI, Machine Learning, Linux, C, Python, Data Structures and Algorithms, Java, Android Studio, Web Programming and many other spheres. Although I haven't done many projects on all of them, but I got satisfying credits for all of them. Currently practicing Machine Learning Skills on a project with Lab team.

EXPERIENCE

2020 - Ongoing

Upwork

Freelancer

Online Jobs Agency

A platform to find the client or developer where I have successfully finished the following tasks

- A landing page with React JS and Tailwind
- Responsive Admin Page
- Fixed some Firebase bugs
- Full Descriptive Website

2019 - 2021

Uzbekistan

Mentor

WEBTech

Web Development Teaching Center

- Taught over 60+ students
- Was a Project Manager for Internship volunteers
- Volunteered for Online Knowledge sharing clubs

TECH SKILLS

Strongest Areas
